REACH. SERVE. TRANSFORM.
To build new hope with God.

Vision & Mission Statement

VISION

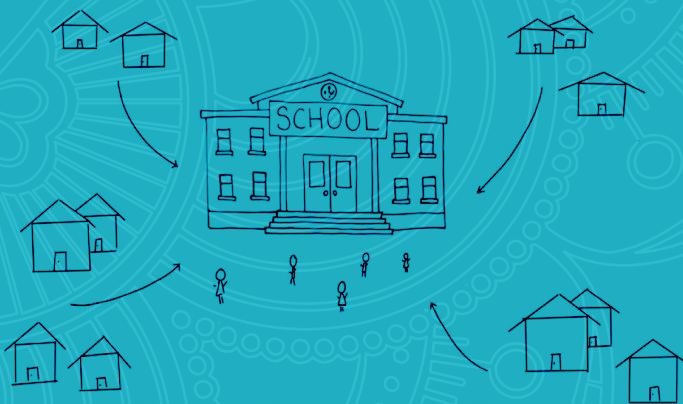

REACH. SERVE. TRANSFORM.
To build new hope with God.

MISSION

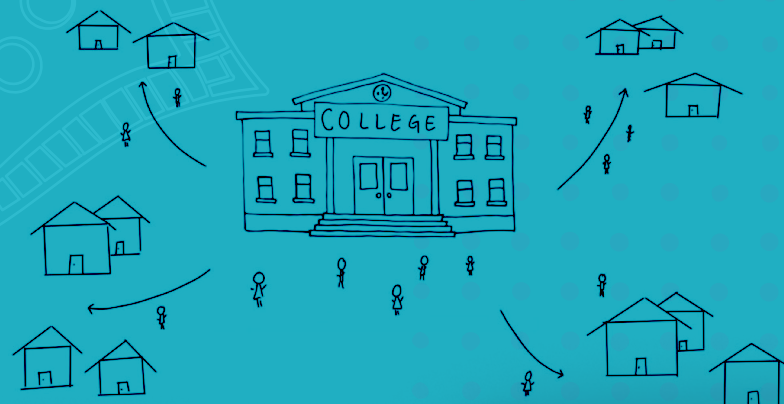

Our mission is to Transform The Communities in the state of CHHATTISGARH (Central India) by providing them sustainable basic needs, Education, Health care and Necessary Skills, ENABLING them to become responsible citizens.

Educating and Transforming the Village Children

“Bringing biblical based, quality education to 500 villages”

Goals & Objective

Our long-term goal is to build a college to **train teachers**, establish 50 mission schools with 1,000 children each in Chhattisgarh, bringing **biblical-based education to 500 villages**, and create **community centers** to disciple families, provide vocational training, and meet basic needs.

Strategies

Our **centrally located schools** serve students from 10 surrounding villages, aiming to transform 1,000 children through **education and discipleship**, teaching **values through the Bible**, and involving others to educate the community about healthcare, family care, agriculture, equality, and **women's empowerment**.

Ongoing Sponsorship Project

Kingdom for Kids

This project supports persecuted families who have embraced Christianity, often facing social and economic isolation. Our schools offer comprehensive boarding facilities, allowing parents to work while their children receive a quality education, fostering a hopeful future.

Why Chhattisgarh (Central India)?

Chhattisgarh has seen religious persecution, particularly against Christians, causing social isolation and hardship. Despite adversity, many remain steadfast in their faith, inspiring others. This project aims to provide the support and encouragement needed for the Christian community to thrive.

Sponsor a child with just \$30 per month.

Ongoing School Construction Project

Step For A New Life Foundation has established three Shining Star schools in different villages over the past decade, providing education to over **700 children**. Starting in rented buildings with minimal facilities, these schools have grown due to high demand.

We now have land for a new, fully-equipped school, with construction aimed to **finish by July**. We need an additional **27,000 euros** to complete the roofing and furnishing. Support for this project will significantly impact the education of children from impoverished families in India.
